COURT OF OYER AND TERMINER.

Refore Hon Judge Roesevelt.

Arm 24.—The priscner at the bar was charged with the wiful murder of Henry Dightmeyer, on the morning of the 28th of February last.

The District Attorney appeared for the prosecution, and ex Attorney General Chatheld, assisted by General Nye and Mr. Baker, appeared in behalf of the prisoner.

Wilson is a man of about twenty-eight years of age, and of not very prepossessing appearance. He was accompanied through the da. by several female members of his family.

A jury was empannelled after one or two challenges. The District Attorney stated the circumstances of the case in his opening address. He said—The statute law of this State declares that the killing of a human being, when perpetrated from a premeditated design to effect the death of the person killed, or of any human being, shall be murder, and of that offence the prisoner at the bar stands charged. The circumstances of the case lie within a very narrow compass, and I will proceed briefly to lay before you the facts, as I expect to develope them in evidence. The decased was a terman by the name of Henry Dighmeyer, who kept a small establishment at No. 101 Reade street, in this city—I believe a sort of drinking shop. The prisoner is a cooper. On the morning of the 28th of February last, about half-past nine o'clock, the prisoner went to the premises in Reade street, it being his third visit there that morning. He had been there twice before, and on each occasion had taken something to drink. On the third occasion of his going into the premises, in company with a friend, he met the deceased and laid his hands upon his shoulders, and they commenced wrestling, in the course of the wresting or scuffle both fell, the prisoner appeared to be very angrey, and some words ensued between them.

share of \$5..... Simeon Draper's regular weekly auction sale of stocks will take place at the Merchants' Exchange to morrow,

at half past 12 o'clock.

At the second board there was not much change in prices, or much doing in the way of business. A very dull feeling prevailed, and the market closed weak, with a downward tendency. There are no orders in the street for purchasing, and the brokers have all the speculating o themselves. The Union Ferry Company have declared a semi-annual to themselves.

dividend of 4 per cent.

The Concord (N. H.) Railroad Company have declared

a semi-annual dividend of 4 per cent.

As a general thing, mining matters were rather better to-day. Gardiner Gold, which seems to be the favorite on the list, sold at the mining board at \$\frac{1}{2}\eta\_i\$, an improvement of 3. Potomac, carrying the Davis without the Isabella, sold at 23. Gold Hill is in active demand at 31/4. North Carolina can be had in any quantity at 21/4.

The Davis Copper Company, an offshoot from the Potemac, was organized on Saturday with the following officers.—Col. Alex. Hamilton, President; Henry Adams, Treasurer, and with these, Wm. Hickok, Thos. J. Ester-brook, Lyman Gilbert, and John Stanton, Directors. It is stated that the mine will shortly be turning out ore for market. The sister company to the Davis—the Isa-bella—has just been visited by the President, who reports in glowing terms on the condition of the mine. He expects to get out 3,000 tons of ore without stoping a foot of ground. We should be glad to hear that these very sanguine expectations were realized. In our advertising columns will be found a report from

the Phenix Mining Company. It seems to us to come rather late in the day. Such reports are usually published at the interesting period when mining companies are cradled into existence, and not, as is the case with the Phenix, after the embryo has lingered through a dehowever, to doubt the truth of any of Mr. Stagg's statements, or the value of the Phenix Mine; and when we bear in mind that the capital stock is only \$300,000, we cannot help considering that for the last four or five months l'henix stock has been cheap.

The Ship Timber Bending Company have called for the payment in full of their stock, to be made on or before the 5th June next. The transfer books are consequently closed for transfer of scrip stock. The company have also declared a dividend of 40 per cent on their full paid capi-tal stock, par value, payable on the 2d of May in the stock of the Frontier Ship Timber Bending Company, which has purchased patent rights for bending timber along the line of the Canada frontier.

According to this there has been a decrease in each department-in some of them to a much greater extent than usual. The line of discounts has fallen off during the week, \$1,259,934; deposits, \$1,675,574; circulation, \$280,144; specie, \$517,068. This diminution in movement has had no effect on the money market, and the demand continues to be fully supplied. This contraction is a favorable feature in the bank movement, and is calculated to been things trainful and market and condition.
